DIRECTIONS FOR USE

CROP	SITUATION	RATE*	COMMENTS
Turf Areas - Fairways and Sportsfields	Injection	2-5L /ha	Inject to irrigation water ensuring even dosing through irrigation cycle.
	Boom Spray	5L/ha	Apply in 400L/ha of water
Turf Areas	Sodium Mitigation Programme*	10L /ha	Apply only as part of a sodium mitigation programme. Apply in at least 400L/ha of water or as irrigation injection. Irrigate thoroughly to support leaching of built up sodium from the root zone.

**Sodium Mitigation Programme: If Sodium is an issue through application of recycled or bore water contact your GTS Agronomist or Technical Field Agent to develop a site specific sodium mitigation programme.*

Tank Mix Flexibility: All tank mix combinations have not been tested on all varieties and all environmental conditions. Limited areas should be tested and reasonable judgement made. Jar test is recommended prior to broad use.

CAUTION

Keep out of reach of children, product may cause irritation to eyes and skin. If splashed in eyes or on skin wash with ample fresh water. Refer to Material Safety Sheet before handling product.

NOTICE

This product is designed for the particular purposes indicated on this label. Failure to use the product strictly as directed may be illegal, prove dangerous and render the product ineffective. No Warranty expressed or implied is given by GTS regarding its suitability, fitness, or efficiency for any purpose for which it is used by the buyer. GTS accepts no responsibility for any consequences whatsoever resulting from the use of this product.
