

# GMX ORGANIC PLUS

## 2-1-3 NPK Complete Organic Conditioner for Turf

GMX Organic Plus is a combination of organic substances to assist in maintaining biodiversity, nutrient and water retention and promotion of larger root systems.

Through a combination of seaweed (ecklonia maxima), soluble humic acids, amino acids, protein and carbohydrates, GMX Organic Plus is the complete organic conditioner.

GMX Organic Plus contains the natural growth hormones Auxins to help promote and develop larger, healthier root systems so to maximise fertiliser and irrigation programs.

Humic Acid will assist in increasing the levels of humus in the profile. Adding Humic Acids will increase the ionic exchange capacity of the sandy soils, buffer toxic salts, excessive pH ranges and stimulate biological activity resulting in root proliferation.

GMX Organic Plus contains proteins and carbohydrates for increased microbial activity such as beneficial bacteria, enzymes and biological substances necessary for efficient soils. The comprehensive list of amino acids creates shortcuts in the construction of plant proteins. This combination of organics will assist the establishment of other biological products.

### ANALYSIS:

ELEMENT		Present As	W/V%
NITROGEN	(N)	Stabilised Nitrogen	2.0
PHOSPHORUS	(P)	Phosphate	1.0
POTASSIUM	(K)	Citrate	3.0
HUMIC & FULVIC ACID		as Potassium Humates	3.0
SEAWEED		as Liquid Seaweed Extract	5.0
PROTEIN			10.0
AMINO ACIDS			10.0
CARBOHYDRATES			20.0

### DIRECTIONS FOR USE:

APPLICATION	Rate
TEES & GREENS	200 - 500 L / 100 m <sup>2</sup>
FAIRWAYS	20 - 50 L / Ha

### APPLICATION NOTES:

APPLICATION	Rate
TEES & GREENS	4 - 10 L water / 100 m <sup>2</sup>
FAIRWAYS	400 - 1000 L water / Ha

Apply to increase organic status and microbial activity.

### NOZZLE COLOUR: Foliar

LOWER WATER RATE

400 (80 MESH)

### NOZZLE COLOUR: Soil Conditioner

HIGHER WATER RATE

1000L (30/50 MESH)
